SoccerGROUND®

The Company SoccerGround®

Creating more opportunities for sport and play is close to our hearts, and we look forward to making it happen with you as our partner.

Whether it's one pitch, 10 or 100, every additional pitch means more sport and more fun for young and old.

As the exclusive manufacturer and designer of the board systems for the "1,000 DFB Mini-Pitches" project, SoccerGround® specializes in permanently installed and mobile soccer and multi-sport facilities.

Through our work with the German Football Association (DFB), the Brandenburg Football

Association (FLB) and international associations, we know what really counts: safety, quality and the joy of playing, at good value for money.

Our experience comes from more than 1,400 SoccerGround® board systems built to date, all of which are played on intensively and proven over many years, in Germany, across Europe and internationally.

We are always happy to help with any questions.

SOCCERGROUND®

The 1,000 DFB Mini-Pitches Project

In 2007, the DFB (German Football Association) decided it was time to actively promote soccer as a school and grassroots sport, and to use play to help integrate children and young people.

Big or small, boy or girl, German-born or with roots abroad: playing together and getting to know one another was the goal, and it still is today.

More than 4,000 schools and clubs applied for the DFB grant, which covered the cost of the entire pitch (excluding groundwork) and offered a great opportunity to expand what schools could offer in a meaningful, lasting way.

1,000 mini-pitches were planned at the start, and 1,006 SoccerGround® courts were built in the end, funded by the proceeds of the 2006 World Cup and UEFA subsidiaries.

Spread evenly across Germany's 21 regional football associations, the pitches now provide optimal coverage across the whole country, so that as many children as possible have a pitch nearby.

All courts are fitted with particularly high-quality Polytan artificial turf and completed by a SoccerGround® board system including goals and ball-stop nets.

And it didn't stop there: following the DFB's example, the Brandenburg Football Association built another 84 pitches, Mecklenburg-Western Pomerania 15, and many other clients more than 300 additional SoccerGround® pitches to date, all supporting the same goal.

SoccerGround® – more play and more fun in sport

For young and old,
tactics, speed and fitness

SoccerGROUND®

Five-a-Side on the SoccerGround®

The game on the SoccerGround® is fast!

Technique and quick reactions are what count here. Thanks to the boards, the ball stays in play nonstop and the players are always on the move.

That's why a game usually lasts 2 x 15 minutes, which has several advantages. For example, teams can rotate faster and don't have to wait long. Training also takes less time and is still highly effective.

For everyone who wants more than soccer, the sports offering can be tailored to their needs with the right modules: basketball, volleyball and much more, whatever you like.

Available in many different sizes, the SoccerGround® is flexible and suitable for young and old.

For children & teenagers

it is a meeting place where they get their first experience of getting the ball into the net. A place to meet up and spend free time, make new friends, let off steam and break down prejudices. Girls and boys playing together, whatever their background; the main thing is having fun as a team.

For adults

the SoccerGround® offers a modern all-round training area. A chance to leave everyday stress behind and work on fitness and technique together. Ideal for work-life balance and team building, and efficient training in the shortest possible time.

Special nets,
no finger traps,
no sharp edges!

The SoccerGround® Advantages

Systems perfectly matched to their intended use

- Not every system is right for every purpose. SoccerGround® board systems are designed specifically for the conditions at hand: sturdy systems for many years of outdoor use, with or without foundations, mobile systems for events, stylish versions for indoor halls, or ultra-compact systems for very small sites.

Safe even when unsupervised, thanks to TÜV/GS per DIN EN 15312

- SoccerGround® board systems are TÜV GS-certified as a complete system (not just individual parts such as the goal) on the basis of DIN EN 15312, and therefore meet the standard for freely accessible multi-sport equipment. This is the basic requirement for letting children play on their own and for being able to insure the system.

Many years of extensive experience in pitch and facility construction

- SoccerGround® board systems have been built more than 1,400 times; all these courts have been played on intensively for years, and we keep developing them so we can always offer you the best possible system. See for yourself and visit one of our more than 1,000 DFB mini-pitch locations: <http://minispielfelder.dfb.de/>

Rock-solid construction ("Nothing rattles!")

- SoccerGround® board systems fully meet the DFB's strict requirements for child safety, noise reduction and quality, so you can enjoy your SoccerGround today and for many years to come.

No finger traps or trip hazards

- SoccerGround® board systems have no finger traps, sharp edges or pointed corners that could cause injuries. The feet of the mobile systems are designed to lie flat on the ground so that spectators don't trip.

High-quality, long-lasting sponsor prints

- SoccerGround® boards can be designed with UV-resistant, scratch-proof multi-color printing. So you can be sure your sponsor will still be presented prominently on your pitch years from now.

Extensive accessories, all from one source

- In addition to your SoccerGround®, we can also supply the right artificial turf or playing surface, side and roof nets, board printing, floodlights, multi-sport options and much more. Of course, we also take care of installation and maintenance, or develop custom constructions together with you. Get in touch, we'll be happy to advise you.

Made in Germany

- SoccerGround® board systems are designed and manufactured in our own steel construction company (a certified welding company) in Hennef near Cologne. We handle every production step, from development to maintenance, so we can respond flexibly and take your wishes and requirements into account.

SoccerGROUND® Classic

**DAS ORIGINAL
DFB-MINISPIELFELD**

SoccerGround® Classic / DFB mini-pitch, 13 x 20 m incl. side nets, Euskirchen

SoccerGROUND® Classic

DAS ORIGINAL
DFB-MINISPIELFELD

Overview

This is the original system selected by the DFB for the nationwide "1,000 DFB Mini-Pitches" project.

We developed the SoccerGround® Classic based on, among other things, the DFB's strict safety requirements for schools and soccer clubs.

To ensure children can use it safely without supervision, it is designed to be particularly safe and to protect against injuries. It is also extremely sturdy, for years of playing fun.

The SoccerGround® Classic is firmly anchored in the ground with foundations, making it a permanently installed sports facility.

Experience from well over 1,000 installed mini-pitches shows that it is an ideal training area not only for children but also for teenagers and adults.

The pitch size is variable; popular standard sizes include 10 x 15, 13 x 20, 15 x 30 and 20 x 40 m.

On request, the sports offering can be extended with various multi-sport features. In addition to soccer, you can play basketball, volleyball, badminton, soccer tennis and much more, all on one pitch.

This system is right for you if ...

- ✓ you want to set up a modern soccer or multi-sport pitch
- ✓ building socket foundations is no problem
- ✓ you need a system that will stay in one place for many years
- ✓ you have high demands for safety and lasting, extreme stability

Built more than 1,000 times, played 100,000 times and proven

SoccerGROUND® Advanced

SoccerGround® Advanced, 23 x 40 m, Bologna (Italy)

SoccerGROUND® Advanced

Overview

The SoccerGround® Advanced is a version of the successful, proven DFB mini-pitch SoccerGround® Classic.

Extremely sturdy, safe and durable, and completely free-standing too!

Instead of anchoring or recesses in the ground, an additional handrail provides maximum stability.

This makes it suitable for all sites where the ground can't or shouldn't be altered, such as disused synthetic surfaces or asphalt schoolyards and parking lots.

This system is also a permanently installed sports facility, but it can be dismantled without leaving a trace and set up again at another location.

Of course, we also offer the SoccerGround® Advanced with multi-sport options (basketball, volleyball, badminton, soccer tennis and much more) and in all sizes. Popular sizes include 10 x 15, 13 x 20 and 15 x 30 m.

This system is right for you if ...

- ✓ you want to set up a modern soccer or multi-sport pitch
- ✓ you have a site where you don't want to or can't build foundations (e.g. synthetic surface, schoolyards, parking lots)
- ✓ you are looking for a board system for long-term installation but want to stay mobile
- ✓ you have high demands for safety and lasting, extreme stability

Free-standing version of the DFB mini-pitch

soccerGROUND[®]

Multisport

SoccerGround[®] Multisport, 13 x 20 m, Leipzig

SoccerGROUND®

Multisport

Overview

Simply turn your SoccerGround® Advanced or SoccerGround® Classic into a multi-functional sports court. The modules, which can be selected separately, let you upgrade your pitch for other sports exactly as you need:

- **Basketball**
goals with basketball attachment, incl. hoop, backboard and net
- **Volleyball / badminton / soccer tennis**
height-adjustable net structure with tension cable and pulley, mounted on the center posts
- **Multi-functional surface**
synthetic surface ("tartan") with colored line markings

This system is right for you if ...

- ✓ you run a leisure facility, hotel or resort with demanding guests
- ✓ you run a school or training facility with particularly sporty children and teenagers
- ✓ you want to offer a wide range of sports, not just soccer
- ✓ you want to make your mini-pitch even more attractive and reach more customers and users

Soccer, basketball, volleyball, soccer tennis and more

SoccerGROUND® Portable

SoccerGround® Portable, 12 x 18 m, Ascona, 2008 European Championship (custom build)

SoccerGROUND®

Portable

Overview

The SoccerGround® Portable is the transportable mini-pitch for sports events.

As a mobile soccer court with integrated goals and nets that keep the ball in play at all times, it is ready to play in no time and offers a particularly eye-catching activity area and lots of fun for young and old.

The SoccerGround® Portable can be set up quickly and easily anywhere, e.g. on a market square, in a park or at trade fairs. Thanks to its modular design with various board lengths, larger and smaller pitch sizes can be built flexibly.

Between uses, smaller pitches can easily be transported and stored on a car trailer.

Of course, all boards can carry eye-catching sponsor advertising on the inside and outside.

For the perfect soccer experience, you can combine the SoccerGround® Portable with our mobile SoccerTurf artificial turf.

This system is right for you if ...

- ✓ you need a pitch for street parties, city festivals, public viewing, fan zones, promotions, incentive and company events, youth festivals, etc.
- ✓ you want a pitch that can be set up and dismantled quickly and easily
- ✓ you are looking for an activity area with plenty of space for advertising and sponsoring (on boards, stands, jerseys and more) that really gets noticed
- ✓ you want to offer a full-fledged sports facility at your event

Also with small goals for street soccer

soccerGROUND® Indoor

SoccerGround® Indoor, 20 x 40 m, Nürburgring ring°arena (event)

soccerGROUND® Indoor

Overview

Indoor soccer is booming, and particularly attractive halls draw customers. They make professional sport possible regardless of the time of day or year.

Equip your new soccer hall or former tennis hall with SoccerGround® boards, goals, nets, floodlights and SoccerTurf artificial turf, all from one source.

Depending on the space available, several pitches can be lined up side by side and separated by nets, which are usually attached to the hall ceiling with tension cables. This keeps the ball in its own playing area while the hall stays airy and open, for a shared sporting atmosphere. The aluminum and steel structure is professionally, securely and invisibly fixed to the floor under the indoor artificial turf.

Alternatively, separate courts that are not screwed to the floor, with nets tensioned on posts, can be moved temporarily (e.g. to the outdoor area of your sports facility in summer).

Of course, any pitch size can be built, whether large (e.g. 20 x 40 m) or small (e.g. 10 x 15 m), for young and old, many or few players, for more stamina, technique and skill.

A combination of multi-functional pitches and soccer pitches is also popular, offering players soccer tennis, basketball or volleyball as well as soccer, for example.

Of course, all boards can carry effective sponsor prints on the inside and outside.

This system is right for you if ...

- ☒ you want to equip a new soccer hall or former sports hall with modern soccer or multi-sport pitches
- ☒ you want to make your hall more profitable
- ☒ you place great value on sound-insulated, extremely robust and long-lasting boards, high-quality artificial turf and professional floodlights

Make the most of your soccer hall

SOCCERGROUND®

Cage

SoccerGround® Cage, 5 x 5 m

soccerGROUND®

Cage

Overview

Bring pace to your event with the SoccerGround® Cage, our compact soccer cage that packs a punch.

Quick to set up anywhere, transported by car trailer and, like all our SoccerGrounds®, ultra-robust. It has to be, because inside, across roughly 5 meters, the soccer action really takes off!

1 vs. 1, fast and furious but fair. Whoever scores 5 points first, or knocks out the opponent with a panna (nutmeg), wins the match.

The ideal training and fun tool for events, promotions, youth or company events and much more. It needs little space but delivers all the more fun and action for players and spectators.

The surrounding boards and nets make sure the ball picks up full speed and push the players to sweat-inducing top performance.

As the ideal addition for perfect grip and maximum appeal, we recommend our professional soccer artificial turf.

This system is right for you if ...

- ✓ you need a pitch for street parties, city festivals, public viewing, fan zones, promotions, incentive and company events, youth festivals, etc.
- ✓ you want a pitch that can be set up and dismantled quickly and easily
- ✓ you only have a small activity area available and want to make the most of it
- ✓ you are looking for a very compact tool for lots of fun, action and attention that is easy to transport and store

The compact class: 1 vs. 1, it doesn't get any faster

SOCCERGROUND®

Accessories

SoccerGround® Advanced, 13 x 20 m incl. floodlights and stands, Olympiastadion Berlin

SOCCERGROUND®

Accessories

SoccerNet Side and Roof Nets

- In addition to the nets behind and in the goals (already included with the SoccerGround®), we offer side and roof net structures (side net height e.g. 3–4 m as standard, 5 m safety net)
- The sides use the same high-quality, safe brand-name nets as the goal ends; with a mesh size of 50 x 50 mm and a thickness of 4 mm, they can't be climbed and don't cut into fingers
- They keep the ball in play at all times and ensure a smooth game without unnecessary interruptions
- They also prevent balls from disrupting nearby roads
- Outside opening hours, the pitch can be locked by bolting the doors to keep out unauthorized persons
- The side nets are of course available in different colors
- The roof net is usually black and hardly noticeable thanks to its wider 100 x 100 mm mesh
- It is tensioned with a cable structure instead of, e.g., a solid roof structure that could loosen and fall down over the years
- The entire structure is long-lasting and protected against corrosion by hot-dip galvanizing in accordance with DIN EN 1461

SoccerGround® Board Advertising

- Use the board design to showcase your sponsors
- Working with sponsors can partially or fully refinance your pitch
- The SoccerGround® board panels offer extensive advertising space on the inside and outside
- Particularly suitable for sponsored courts, company mini-pitches, incentive events and more
- Full-surface branding is possible with:
 - Direct print**
Long-lasting, UV-resistant multi-color offset print applied directly to the boards
 - Vinyl graphics**
Temporary, interchangeable multi-color vinyl graphics on the boards (e.g. when sponsors change)

**OPTIMAL ZUR
REFINANZIERUNG**

SoccerGROUND®

Accessories

SoccerGround® Multi-Sport Options

- To extend your sports offering, reach a wider audience and make your facility more attractive, you can upgrade your SoccerGround® to suit your needs

- The following modules are available:

Volleyball, badminton & soccer tennis

Height-adjustable net structure with tension cable and pulley, mounted on the center posts; the net can be set for the sport you want to play

Basketball

goals with basketball attachment, hoop incl. backboard and net

SoccerGround® Sports Surfaces

- On request, we can supply the right playing surface with white or colored line markings
- Our brand-name sports surfaces are available in different versions and price ranges, depending on your requirements and budget:

Artificial turf

For soccer and extra playing comfort, unfilled or filled with sand and rubber granules, incl. elastic underlay for optimal shock absorption

Synthetic surface

For the best ball bounce in basketball

Multi-functional artificial turf

With more ball bounce for multi-sport

- The SoccerGround® also works with:

Asphalt

In schoolyards, parking lots, etc.

Sand

For beach soccer, beach volleyball, etc.

Natural grass

In parks, at events, etc.

SOCCERGROUND®

Accessories

SoccerLight Floodlights

- **SoccerLight LED energy-saving system**
maximum service life with minimal energy and maintenance costs; up to 40% energy savings, up to 100,000 operating hours, dimmable on request
- For play at any time of day, an impressive experience for spectators and a real stadium atmosphere late into the evening
- The floodlight system can be mounted without additional foundations
- Depending on the pitch size, 2, 4 or 6 masts are used per SoccerGround®
- Individual lighting levels, e.g. in accordance with DIN EN 12193 class 2 or 3
- We will be happy to prepare a lighting calculation for your pitch

SoccerGrandstand Stands

- Create a real stadium atmosphere with spectator stands featuring FIFA/UEFA-compliant stadium bucket seats for the best view
- Two or three tiers, with 20/30 seats per 5 m segment (i.e. 80/120 seats along a 20 m pitch)
- TÜV-tested stands that need no foundations thanks to special counterweights, so they stay mobile
- Optimal staggered seating rows, with even the first row raised, so every row has the best view of the pitch
- The handrail makes watching comfortable by giving spectators something to lean on, and also stops overexcited fans from falling onto the row below
- The back of the stands can be fully covered with advertising banners
- Quick and easy installation, as the stands are delivered as a modular system
- Seats available in various RAL colors

The background of the page features a detailed architectural drawing of a stadium, likely the Borussia Dortmund stadium. The drawing shows the stadium's seating tiers, pitch, and surrounding infrastructure. It is rendered in a light blue and green color scheme, with various lines and text indicating structural details and dimensions. The drawing is oriented diagonally across the page.
